Rare Cancers Updates

From  **Great Debates & Updates**

New Virtual Conference Series

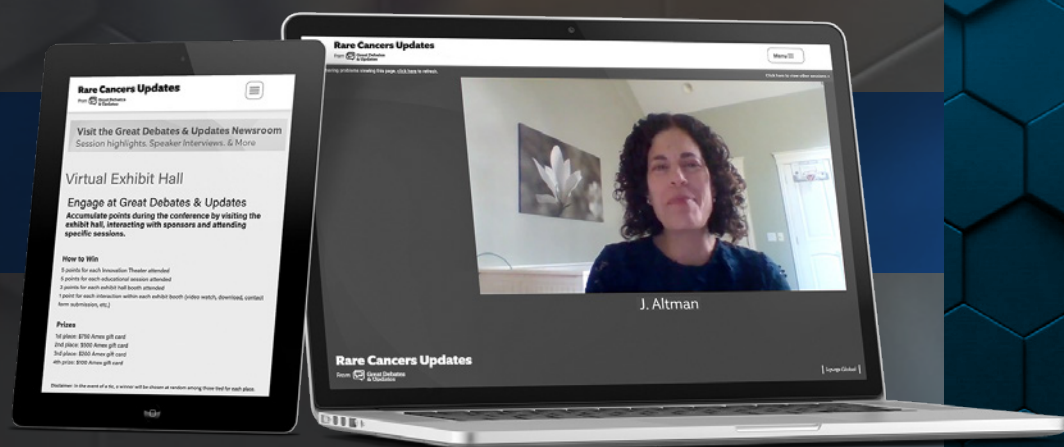

These new 1-day conferences will focus on new data in a variety of rare cancers and how it fits into current practice.

A comprehensive overview of the most significant advances in the treatment of rare cancers, as well as valuable take-home information, will be discussed.

The unique format will include didactic presentations and lively and interactive debates, covering some of the most controversial topics in the field. Audience discussion will be encouraged, with a focus on how new information fits into current community practice. Attendees will get an insightful look at more than one side of a question, giving them a chance to really engage. These virtual conferences are sure to be an engaging, interactive educational opportunity for attendees.
